Special Constable Refresher Course
1 Week Onsite – Cost \$875.00

The Special Constable refresher course is designed for officers (every 3 to 5 years) to remain current with Criminal and Provincial enforcement. This course will review notebooks focusing on crown briefs, disclosure and court proceedings. Officers will review relevant areas of arrest, search, use of force, release and seizure. Special Constables have the same powers and Provincial and Municipal police officers (while on their worksite) and are therefore required to understand the necessity to properly release subjects via form 9 when necessary. Other release forms will also be reviewed to ensure understanding of these release options. Probation orders and their relevance to special constables will be reviewed. Officers will also review ethical decision making through innovative discussion and reflection. Provincial Statutes, Crime Scene Management and Drug awareness will update officer's skills and generate discussion of current areas of concern. Officers will be encouraged to discuss their local enforcement challenges.

Investigative detention is an important tool during some investigations. It is important that officers understand when and how to lawfully utilize this power and its limitations.
